

## ALT Out of State Registration for Financial Contributions

---

In its desire to comply with the highest standards imputed upon land trusts in the United States of America, while balancing that desire with the practical constraints imposed upon the Androscoggin Land Trust by its size, budget, and geographic scope, ALT shall register as a charitable organization with all States with which it is legally required to register based on its activities conducted therein. In determining what states ALT shall register with it shall be guided by this policy.

The Androscoggin Land Trust shall register in any state where it either: i.) specifically targets persons physically located in the state for solicitation; or ii.) receives contributions from the state on a repeated and ongoing basis or on a substantial basis through its Web site.

“Specifically targeting persons” is defined by ALT as either (a) an express or implied reference to soliciting contributions from that state; or (b) affirmatively appealing to residents of that state, such as by advertising or sending messages to persons located in that state (electronically or otherwise) when ALT knows or reasonably should know that the recipient is physically located in that state.

Contributions shall be regarded as “repeated and ongoing” and “substantial” when ALT receives 100 contributions from within any State or \$25,000 in a given year.
